RE: MSIS Data Reporting Activities

Please disregard the MSIS Data Reporting Activities report that was mailed on 02/18/2010. That report reflected incorrect data for supplemental services. The report displayed migrant and non-migrant supplemental services. The new corrected report enclosed only contains migrant funded supplemental services.

I hope you find this information beneficial. If you have any questions on your district's data reporting activities, please contact a Data Management Specialist/Trainer at 800-274-6084.
