Migrant Student Data and Recruitment Office
"Touching the Lives of Migrant Families"

May 7, 2010

TO: Title I Migrant Education Federal Programs Directors
FROM:  Lionel G. Campos, MSDR Director
RE: Migrant Student Information System Reports

The enclosed reports reflect migrant student data for your district as entered in the Migrant Student Information System (MSIS) through May 1, 2010.

- **Enrollment Comparison Summary Report** – This cumulative report provides a three (3) year comparison count of enrollments by buildings and months. Out-of-school counts are also included.
- **LEA Reporting Summary** – This report provides LEAs a summary of data entered by month and category.
- **Qualifying Arrival Date (QAD) Report** – This report lists students whose qualifying arrival date (QAD) will expire within 30, 60, 90 or 120 days. It is important that contact be made with families listed on this report to determine whether a more recent qualifying move has been made which may re-qualify the family.

Additional MSIS reports are available at www.msdr.org.

As the number of students identified in the Migrant Education Program have decreased in recent years, I encourage you to carefully review the Enrollment Comparison Summary for your LEA to analyze your enrollment figures for the past three years.

If you would like assistance in using these reports to monitor your migrant student data reporting activities, please contact a Data Management Specialist/Trainer at 800-274-6084.
